

DEAR FAMILY AND FRIENDS

Happy New Year 2025. Thank God for last year. It was challenging and unforgettable. I know he made a way through the sea and a path through the mighty waters. He will make a way through the desert land. He is with us as we move forward to this new year.

Since this newsletter is coming to you little late. I would like to give you few updates from the end of the year 2024.

Leadership Conference: The annual leadership conference was held on November in Dhading. Each year, pastors and leaders attend to refresh and recharge themselves. We share various resources and connect. It was a blessing to have great speakers and many testimonies, and God is bringing growth to different people and ministries. We meet annually to give updates on the work each year.

Leadership Team for CFA: I am thankful for the team around me, which includes great leaders who lead various ministries. Church planting continues to go well, and so do the other ministries. Some of these people have worked with me for many, many years. I am grateful to my team. Let me introduce a few out of the many:

Santosh & Sharadha have worked with me for many, many years. They are a pastor couple in a downtown church in Kathmandu, and Santosh also works for the CFA School of Ministry. He has worked with us for over 20+ years. They have two kids.

Dal & Ganga joined us in 2004. Dal planted a church in Dolakha before moving to Kathmandu. He was the academic dean for our Bible School for 6 years. He pastored at Mhedy Church for a few years, and as we planted the church in Mandikatar, he pastored that church and continues to teach at our School of Ministry. They have two boys, both of whom are active in ministry.

Mangel & Martha: Martha was raised at the children's home, and Mangel joined me in 2004. He studied and worked there. It has been a blessing to have him for the last twenty years. Today, he is also one of our social work (NGO) leaders. This couple has worked hard, and they have two kids as well.

Dinesh & Rita: Dinesh was raised at the children's home. They have two kids leading over our North Tibetan mission base.

Lokmani & Pinki are leaders in the second children's home. They are a mature couple, and he is also a pastor.

Dinesh & Kopila are our lead team in India. They also came out of our Bible college.

Around 35 people are working in different ministries. Thank you, Lord, for the team.

Mangel has just returned from visiting south Nepal and encouraging the local churches. It is expected to have a leader visit different churches nationwide and in India. Since I cannot make it so often, I send one of our leaders for visits and follow-ups.
